## About This Game

Since ancient times, it is believed that any mirror can become a portal to the world dead. One of the oldest rituals with a mirror is the rite of the call of the Queen of Spades.

There are many different theories of its origin. Majority of them it boils down to the fact that the legend of the Queen of Spades came from a deck of cards, where a woman was depicted. Perhaps she was portrayed ominously, or the suit of his black spades symbolized evil, however, the Queen of spades began to be compared to the black witch, carrying suffering and death.

Thus, from the image of a woman depicted on the map, the Queen of spades became the image of an evil spirit, absorbing all the negative energy from the legends and stories about her.

Many have heard of it, but not everyone is ready to meet her. Does it really exist, or is it just a figment of a person's imagination?

This will learn the main character. His goal is to prove or disprove her existence. One way or another, it's worth remembering that summoning a creature from the underworld isn't safe entertainment...

The Graphic and the Sound are Cheap (you have only 3 Resolution Options).

The Story is interesting but that was all ( When you like the Sotry look the Russian Horro Movie "Queen of Spades" or in Russian: "Pikovaya dama. Chyornyy obryad")

You can't run and you starting without an Hint what you are doing in this crap Building.

This is for me an Cash Crab Game.

. This game was extremely dark I couldn't see anything at all while playing. Did I miss a flashlight somewhere? I felt like I was stumbling in the dark, it was very frustrating.

This for me was a Cash Crab game.
