## Steven The Sperm Download Game Hacked

Download >>> <http://bit.ly/2NFWOM4>

### About This Game

*The ultimate race of life....*

~Steven and the rest of the sperm were preparing for their big race, when all of a sudden, a horrific rush of spermicide began to attack and kill them all! Many (future) lives perished, but one survived - Steven!

Steven was fast and nimble, and managed to evade the threat! Now, all alone with the spermicide closing in on him ever so quickly, Steven must make it to the egg before it's too late! Will a child be born, or will the commanding contraception erase him from exquisite existence?~

### Features!

- 6 awesome and unique stages! (12 stages technically if you count unlocking something that may... "modify" these levels a bit...)
- Challenging and addictive gameplay with satisfying sound effects that'll keep you playing for hours! (even if you die over and over again.)

- 
- Charming game atmosphere with a late 90s PC game vibe, and lots of little quirks and details!
  - Cool unlockable title screens and cosmetics to personalize your game!
  - Achievements to help give some extra objectives and spicen up the stages after you've mastered them!
  - Bonus videos that'll make you want to see what happens when you (or **IF** you can) 100% the game...
  - A nice and simple High Score board to help track your accomplishments and improvement!

**Can you make it to the egg and give birth to a beautiful life? Or will you perish and leave only failure in your wake?**

I have only played the tutorial, but if any of you have played Galcon Fusion (Indie Game) then you know what this game will be like. The basic premise is the same. You simply have to have the same amount or more of your "walkers" than the enemy to take over their land and destroy enemy walkers. However, there are a number of ways to do this. This strategy game maintains a beautifully "greater in numbers" turn based tactics but adds diversity too with the addition of different units to utilize. There are long range stationary cannons, transports, walkers, and harvesters (that can both harm you help you and be used as a weapon). Overall, it is an intuitive strategy experience that is part puzzle, part turn based tactics. I definitely recommend this title.. Worth the wait. Beautiful art, fantastic animation. I love the ending. It was very heartwarming.. A well presented game, simple enough and fun, but it gets very repetitive, very fast, but I guess all games like this are deemed to get repetitive in the end, other than that, it's fun for the occasional gameplay.

6/10. Nice game.... until it stopped working... Wow, terribly crude & dreadful playability. Extremely primitive, dull boring. Just downright awful. What a waste of money, amazing something this bad is actually being sold on steam, Zero out of ten.

---

The graphics have improved over the years but the core of this game (physics, controls and AI) is seriously lagging behind other modern racing games.. On the downside as with all Early Access games it's unfinished, unpolished, broken in places and requiring a hell of a lot work and content.

On the brightside, it lets you mount a♥♥♥♥♥♥laser so take from that what you will.. Enjoyed playing it, but i dont think its worth the price. When a game gets frustrating, it loses its charm. It is a megaman clone, and the idea is very good. close to a MMX experience,

#### HOW-e-VER

when a game crosses the line between challenging and frustrating, the charm is lost. the game is memorable for how much rage it generated! a little better level design could have gone a VERY long way... if its a bit of a challenge to get to the platforms just to be able to clear the stage... yeah, that may need some tweaking! Bosses are OK, but need a little balancing. I hate to sound like im just... complaining (cause I dont want to use the term in my head) but i really wanted to like this one, and it just frustrated the hell out of me!. This game is amazing! about the same amount of replay ability as lone echo on rift. which means replay it every 1 to 2 months. There is a story but its only 5-6 hours. It has really cool combat and game micanics. There are some bugs like very long loading screens or crashes when opening doors, but none of that stopped me from restarting the game over and over again in order to finish it. its just that good. DLC would be amazing! And a 2nd game with a much longer story would have me buy the next one in a heart beat.
